

# A full line of quality hand tools from the brand trusted for over 100 years

The wait is over. With over ten different multi-piece sets the Crescent mechanics hand tool line is one of the most complete on the market. With master sets including a wide selection of pliers, adjustable and combination wrenches, sockets, ratchets, extensions, screwdrivers and more, this new Crescent line has your tool needs covered.

## Crescent Quality designed into every tool

From the flawless chrome finish of its wrenches, ratchets, and sockets to the perfectly balanced and shaped dual-material handles of its screwdrivers, this line of industrial hand tools has an extraordinarily high level of quality. Crescent Quality tools get jobs done faster and increase overall productivity.

## Manufactured for exceptional durability

Crescent mechanics tools are made from chrome vanadium steel alloy, specially formulated and heat-treated for high strength and superior resistance to abrasion and corrosion.

Every part of every tool – from the vapor-blasted screwdriver tips to the hardened ratchet gears and pawls – is designed for extremely long life.

## Tools that always meet the specs

Crescent mechanics tools meet the specs and more. All sockets and ratchets meet or exceed both DIN and A.N.S.I. load specifications. The open-end jaw surfaces on the combination wrenches are parallel to within  $\pm 0.001$ ". And the tip of every screwdriver is vapor blasted. These additional processes and extra steps result in tools you can count on to be strong, well-designed, and durable enough to get the job done right, time after time.

The box ends of Crescent combination wrenches feature Surface Drive® technology – a design that virtually eliminates rounding of fasteners.

## A set for every situation

Whether you need a full set of tools or are looking for something more compact, Crescent has a set that will fit your requirements. Master sets come in either with Metric or Metric/SAE mix sizes and include an extensive component selection, featuring new heavy-duty blow molded storage case with long-life pro-grade latches.

*All Crescent® ratchets have a highly polished chrome finish so they're easy to keep clean and feature a quick release socket retention button so socket change-out is simple and quick.*
