SUPPLIER OF SOLUTIONS

THE BROADLINE DISTRIBUTOR OF ELECTRONIC COMPONENTS

2013
2014

CREE – a market-leading innovator of lighting-class LEDs and LED lighting. Cree's leadership begins with innovative materials, primarily silicon carbide (SiC), that provide high-efficiency performance for numerous semiconductor applications. Cree's XLamp® LEDs have continually exceeded industry standards for brightness and efficiency.

CREE - přední společnost na trhu LED diod pro osvětlení. Vedoucí postavení společnosti Cree začíná u inovativních materiálů jako silikon-karbid (SiC), které poskytují vysoký výkon a efektivitu pro mnohé polovodičové aplikace. XLamp® LED Cree soustavně posouvají průmyslové standardy ve svítivosti a účinnosti.

CREE – führen-der Innovator auf dem LED-Markt für Beleuchtungen. Die Führungsposition des Unternehmens Cree basiert auf innovativen Materialien wie Siliziumkarbid (SiC), welche eine hohe Leistung und Effizienz für zahlreiche Halbleiteranwendungen bieten. XLamp® LED Cree verschieben systematisch die Standards hinsichtlich Leuchtkraft und Wirkungsgrad.

A CREE vezető fejlesztő a világítástechnikában használt LED-ek piacán. A cége vezető szerepe az olyan innovatív anyagokban rejlik, mint a szilikonkarbid (SiC), mely nagy teljesítményt és hatásfokot biztosít számos felvezető alkalmazásban. Az XLamp® LED Cree folyamatosan emeli az ipari normák szintjét a fénykibocsátás és hatásfok területén.

CREE – lider i innowator na rynku diod LED do oświetlenia. Wiodąca pozycja spółki Cree zaczyna przy innowacyjnych materiałach jak silikonkarbid (SiC), które umożliwiają wysoką moc i efektywność. Dla wielu aplikacji półprzewodnikowych. XLamp® LED Cree nieustannie posuwają standardy przemysłowe w mocy świetlnej i wydajności.

CREE – un lider de piață inovator în domeniul iluminării cu LED-uri. Succesul companiei se datorează utilizării unor materiale revoluționare, în principal carbid de silicon (SiC) care cresc randamentul și eficiența numeroaselor aplicații de semiconductoare. LED-urile Cree XLamp® au întrecut standardele industriale în materie de strălucire și eficiență.

CREE – vedúci innovátor na trhu LED diód pre osvetlenie. Vedúce postavenie spoločnosti Cree začína u inovatívnych materiálov ako silikon-karbid (SiC), ktoré poskytujú vysoký výkon a efektívnosť, pre mnohé polovodičové aplikácie. XLamp® LED Cree sústavne posúvajú priemyselné štandardy v svietivosti a účinnosti.

XLamp LEDs were the first "lighting-class" LEDs – LEDs bright enough to be used in general-illumination applications, such as desk lamps, ceiling fixtures and street lights. Using SiC as a platform material, Cree has spent over 20 years developing an array of new technologies that far surpass traditional ones. Cree leads the LED lighting revolution and is making energy-wasting traditional lighting technologies obsolete through the use of energy-efficient, environmentally friendly LED lighting. In addition, Cree's extensive line of high-brightness LEDs are also introducing new performance levels to outdoor video displays and decorative lighting.

Did You Know?

Cree first brought the blue LED to market in 1989.

Features

- Complete portfolio of ANSI-compatible white
- Smallest warm-white chromaticity bins
- High energy efficiency and luminous flux
- Proven white point stability
- Complying with ISO standards
- RoHS and REACH-compliant
- Energy Star
- EPA

Applications

- Outdoor lighting
Parking area, roadway, pedestrian
- Portable and personal lighting
- Indoor lighting
Downlights, wall washers, flush-mount
- LED light bulbs
- Retail display lighting
Display case, refrigerated display
- Architectural lighting
- Solar-powered lighting
- Security lighting
- Automotive industry

Advantages of LED Light

- **High energy efficiency**
- luminous flux up to 110lm/W
- **High-quality light**
- no compromise between efficiency and CRI
- **Directional** - no wasted light; any pattern possible
- **Extremely long lifetime**
- life of more than 50,000 hours of operation
- **Mechanically resistant**
- no easy damage of components
- **Instant on** - reaches full brightness in nanoseconds
- **Environmentally friendly**
- contains no mercury, lead or other heavy metals
- **Infinitely controllable**
- allows easy energy saving
- **Frost resistant** - working at low temperatures

**XLamp CXA2011**

High lumen output in a single, easy-to-use package.
• 22.00 x 22.00 (mm) 120°

**XLamp MC-E**

High-Lumen Output in a Small Form Factor
• 7.00 x 9.00 (mm) 110°

**XLamp ML-B**

Lighting-Class Performance for Linear & Distributed Illumination Applications
• 3.50 x 3.50 (mm) 120°

**XLamp ML-C**

Versatile, Mid-Power, Lighting-Class LED
• 3.50 x 3.50 (mm) 120°

**XLamp ML-E**

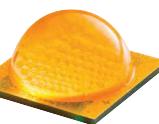

Versatile, Mid-Power, Lighting-Class LED
• 3.50 x 3.50 (mm) 120° | 125°

**XLamp MP-L EasyWhite**

Unprecedented Performance, Color Consistency and Lumen Density
• 12.15 x 13.15 (mm) 125°

**XLamp MT-G EasyWhite**

Optimized for Small-Form-Factor Directional Lighting
• 8.90 x 8.90 (mm) 120°

**XLamp MT-G2**

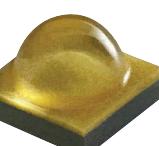

Industry's best color consistency and superior optical control
• 8.90 x 8.90 (mm) 115°

**XLamp MX-3**

Industry's tightest color consistency and uniform angular chromaticity
• 6.50 x 5.00 (mm) 125°

**XLamp MX-6**

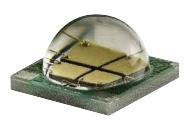

80 CRI-minimum, higher flux and high-voltage options
• 6.50 x 5.00 (mm) 120°

**XLamp XB-D**

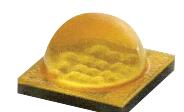

Smallest lighting-class LED enables dramatically lower system cost
• 2.45 x 2.45 (mm) 115°

**XLamp XM-L**

Shatters Single-Die Performance Standards
• 5.00 x 5.00 (mm) 125°

**XLamp XM-L EasyWhite**

Optimized for 20-25W Halogen Replacement Products
• 5.00 x 5.00 (mm) 115°

**XLamp XM-L High-Voltage White**

High efficacy and lower system cost for the smallest LED systems
• 5.00 x 5.00 (mm) 115°

**XLamp XP-C**

Proven lighting-class performance and reliability
• 3.45 x 3.45 (mm) 115° | 125°

**XLamp XP-E**

Lighting-Class Performance
• 3.45 x 3.45 (mm) 115° | 130°

**XLamp XP-E High-Efficiency White**

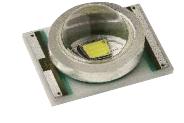

High efficiency, lower system cost
• 3.45 x 3.45 (mm) 120°

**XLamp XP-G**

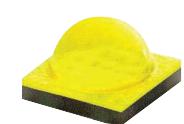

Optimized for high lumen directional lighting applications
• 3.45 x 3.45 (mm) 120° | 125°

**XLamp XR-C**

Cree High-Power LEDs
• 7.00 x 9.00 (mm) 90° | 100°

**XLamp XR-E**

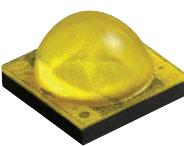

Cree's Lighting-Class Power LEDs
• 7.00 x 9.00 (mm) 90° | 100°

**XLamp XT-E High-Voltage White**

High efficacy and lower system cost for the smallest LED systems
• 3.45 x 3.45 (mm) 115°

**XLamp XT-E Royal Blue**

High-performing royal-blue LED for remote-phosphor applications
• 3.45 x 3.45 (mm) 140°

**XLamp XT-E White**

Highest-performing lighting-class LED
• 3.45 x 3.45 (mm) 115°
